MANUSCRIPT PREPARATION

Prepare your manuscript according to the [Publication Manual of the American Psychological Association \(6th Edition\)](#). Manuscripts should be copyedited in accordance with Chapter 3 of the Publication Manual relating to unbiased language. We recommend the use of the [APA Checklist for Manuscript Submission](#) to help you prepare and review prior to submission.

Each manuscript must be accompanied by a statement that it has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere. Authors are

additionally responsible for obtaining the relevant ethical approvals from relevant institutions, or should be able to provide us with an ethics waiver from their institution (i.e., in case the project is exempt from full ethics review). Authors are responsible for obtaining permission to reproduce copyrighted material from other sources and are required to sign an agreement for the transfer of copyright to the publisher. As an author, you are required to secure permissions if you want to reproduce any figure, table, or extract from the text of another source. This applies to direct reproduction as well as "derivative reproduction" (where you have created a new figure or table which derives substantially from a copyrighted source). All accepted manuscripts, artwork, and photographs become the property of the publisher.

Types of Submissions

The *IJFMH* accepts a variety of submissions, relevant to the field of forensic mental health (e.g., criminal responsibility, competency or fitness to stand trial, risk assessment, family violence, and treatment of forensic clients, diversion, correctional mental health, mental health tribunals, intellectual disabilities and violence). Examples: Original experiments (qualitative and quantitative), systematic reviews and meta-analyses, narrative reviews, case studies, program evaluations.

Formatting

- All parts of the manuscript should be typewritten (Times New Roman, 12 pt.), double spaced, with margins of at least one inch on all sides.
- Pages should be numbered consecutively throughout the paper.
- Authors should also supply a shortened version of the title suitable for the running head, not exceeding 50 character spaces.

Abstract

Each article should be summarized in an abstract of not more than 150 words. Avoid abbreviations, diagrams, and reference to the text in the abstract.

Authorship Affiliations

Each author should be listed with his or her primary departmental affiliation and institution name, and city/state/country (where applicable). The corresponding author(s) should be clearly noted.

No authorship or otherwise identifying information should be included in the abstract, body of the manuscript, or reference list. Rather authorship can be conveyed on a separate title page (consistent with the APA Publication Manual 6th Ed.) and (if applicable) in an accompanying cover letter.

Additional Considerations

Funding. All sources of funding and potential conflicts of interest should be noted in the admission portal and (if applicable) in an accompanying cover letter.

Keywords. A maximum of 5 keywords, relevant to your manuscript, will also be required.

References. References, citations, and general style of manuscripts should be prepared in accordance with the [APA Publication Manual, 6th Edition](#). Cite in the text by author and date (Smith, 1983) and include an alphabetical list at the end of the article. Each in-text reference should be included in the reference list; each reference in the reference list should appear in the text of the manuscript. Please also be sure to include DOIs.

Illustrations

Illustrations submitted (line drawings, halftones, photos, photomicrographs, etc.) should be clean originals or digital files. Digital files are recommended for highest quality reproduction and should follow these guidelines:

- 300 dpi or higher
- Sized to fit on journal page
- EPS, TIFF, or PSD format only
- Submitted as separate files, not embedded in text files

Color Illustrations. Color art will be reproduced in color in the online publication at no additional cost to the author. Color illustrations will also be considered for print publication; however, the author will be required to bear the full cost involved in color art reproduction. Color reprints can only be ordered if print reproduction costs are paid.

Print Reproduction: \$900 for the first page of color; \$450 per page for the next three pages of color. A custom quote will be provided for articles with more than four pages of color. Art not supplied at a minimum of 300 dpi will not be considered for print.

Tables and Figures. Tables and figures (illustrations) should not be embedded in the text, but should be included as separate sheets or files. A short descriptive title should appear above each table with a clear legend and any footnotes suitably identified below. All units must be included. Figures should be completely labeled, taking into account necessary size reduction. Captions should be typed, double-spaced, on a separate sheet. Refer to the APA Publication Manual, 6th Ed. for guidance and examples.

REVIEW PROCESS

Oppose Reviewers

You will be able to provide us with the names and details of reviewers you do not want to have review your manuscript. This could be due a variety of reasons (e.g., long-time collaborators, provided feedback on an earlier version of the manuscript prior to submission, a strong fundamental difference of views).

Blind Review

The *IJFMH* uses a double-blind review process, meaning that author and reviewer identities are concealed from each other throughout the entire review process. That is why it is important, in preparing your manuscript, that you ensure no identifying information is in the abstract, manuscript body, figures and images, or reference list.

Authors should submit a title page containing the authorship details, and a blinded manuscript with no author details as two separate files. When self-referencing, use third person pronouns to protect anonymity. Example: "... as our previous work has shown" becomes "... as has been shown previous."

Become a Reviewer

If you are interested in becoming an ad-hoc reviewer please contact us. In order to facilitate this process, we recommend you are nominated by a member of IAFMHS (a succinct email is sufficient) and provide a CV; you can send this to tnicholls@forensic.bc.ca and ilvy.goossens@forensic.bc.ca.

Student Reviewers

We are particularly interested in supporting student reviewers. Students should be admitted to a graduate program in a related discipline and must have a direct supervisor who is willing to collaborate on the review(s).
